# ENVIRONMENT, SUSTAINABILITY & CLIMATE ACTION

A landscape photograph showing several white wind turbines on a rolling green hillside. A large, bright yellow sun is visible on the right side of the image. The sky is a clear, light blue. The foreground shows a field of tall, golden-brown grass.

We want to deliver real impact and action, in line with the UN's Sustainable Development Goals, playing our part in the global fight against climate change. On a local level we want to be a beacon for sustainability and to ensure we offset any negative impact our events and operations may have on the local environment.
